# Welcome

Seven comforting dinners inspired by the flavors I grew up with in Uganda — chapati nights, pea stew, coconut rice, and simple sides — planned so you can cook after work without stress.

Print this plan, stick it on the fridge, and shop once. Recipes live on the Cook with Bree website — use the links at the end when you need full instructions.

## 7-Day Dinner Calendar

---

### Monday

#### English Peas Stew with Coconut Rice

*Start the rice cooker first, then simmer the stew. Leftover stew keeps well for lunch.*

### Tuesday

#### Chapati Night with Leftover Stew

*Warm leftover peas stew. Make a half batch of chapati if you're short on time.*

### Wednesday

#### Cozy Chicken & Vegetable Soup

*One-pot night. Freeze any extra portions without pasta for later.*

### Thursday

#### Lemon Garlic Pasta

*20-minute win. Add a simple green salad if you have energy.*

### Friday

#### Honey Roasted Root Vegetables + Sandwich Bread Toast

*Sheet-pan vegetables. Toast leftover sandwich bread with butter.*

### Saturday

#### Roasted Beef Luwombo with Matooke (or mashed plantain/potato)

*Weekend project dinner. Start early — luwombo rewards patience.*

### Sunday

#### Grandma's Banana Bread + Soup Leftovers

*Bake banana bread for the week. Reheat Wednesday's soup for an easy night.*
